3. After clicking the link, patient is taken to the Ambra Image upload portal. **Click "Choose File"**.

Locate the folder(s) to be uploaded.

4. If no file(s) appear **after navigating to the appropriate folder**, it means the file(s) are not the appropriate DICOM format. If this happens, the patient should be directed to call his/her physician's office to see if A) a new study is necessary or B) the visit can go on as planned.

5. After selecting the appropriate file(s), **click "Upload"**

6. Patients will have to **Click** the "I understand..." box before uploading selected studies. Once checked, click '**Upload Selected Studies**' to complete the upload process.
